Head Teacher Mrs. Julie Cooper.

Date: 14th September 2009

I am writing this statement on behalf of the governing body to express our gratitude to Torpoint for our building extension. Throughout this extensive project Torpoint have been professional, flexible and highly organised. As the head teacher I have felt confident that outcomes were being met in partnership with my staff. Indeed Richard, alongside managing the project, has on many occasions supported the school with numerous other unconnected incidents for which we are really grateful. He feels like a member of Carlton Primary staff and he will be missed !

Torpoint have worked in a close relaxed and friendly partnership with my staff and have encouraged my personal involvement at every stage. When winter weather delayed the schedule we agreed to reorganise the timetable to meet the original completion date and Torpoint ensured that this happened - a challenging feat!

Torpoint take extreme pride in their service and have ensured that there has been attention to high quality detail in the finished product. (even doing additional decorating at no charge to ensure that quality)

The children and staff have begun this Autumn term with enhanced enthusiasm and purposeful direction in our vastly improved learning environment. I would not hesitate to recommend Torpoint to any school undertaking a large building project. I would be delighted to welcome the company to tender for any future works at this school.

Julie Cooper (head teacher)
