Dear Garry

Reference: Torpoint Construction

Torpoint were the successful tender, constructing a 1.7 million pound 6<sup>th</sup> form block. Work commenced on our college site December 2009 and completed on time during August 2010. Throughout the entire process Torpoint were understanding of our college ethos, flexible to our changing needs, diligent with meetings and communication and professional at all times.

The 6<sup>th</sup> form block is now in full use everyday much to the appreciation of students and staff alike. I wouldn't hesitate to embark on any future Capital projects using Torpoint as the principal contactor.

Regards
