Subject: Hoyle Court Phase 2 Building work

Hi Jon

I wanted to put in writing a thank you and your team from everyone at Hoyle Court for the hard work that has been put into the completion of our phase two building work. On seeing the building site that our school was when I returned from holiday in August, it did not seem possible that we would be able to open for children on time.

We do appreciate it took a lot of effort and hard work to ensure the school opened on time. It was fantastic to watch the children and parents walk through our new hall on the first day and listen to gasps and 'wows!' It made all the hard work and disruption worth it!

We also appreciate that you took on extra work on top of the original contract and although there has been some inevitable disruption, this has been kept to the minimum and allowed us to make a successful start to our new school year.

I know too well that people are quick to complain but not so quick to compliment so wanted to make sure we did just that.

Thank you again from all the children and staff at Hoyle Court

Lynda Florence
